- NOTES:** (1) Totals may not equal the sum of the components due to independent rounding. Percentages are also calculated on numbers subject to independent rounding.
(2) For oil, both the Federal OCS and U.S. Total are based on the sum of crude oil and condensate.
(3) For gas, Federal OCS is based on the sum of gas well gas and casinghead gas, including vented and flared gas. The U.S. Total is based on the sum of marketed and vented and flared gas.
(4) Monthly data is subject to revision for both Federal OCS and U.S. Total.
